

# PARTNERS IN POSSIBILITY

cGMP manufactured, Haelium™ Sodium Hydroxide (NaOH) Pellets as buffers in biopharmaceuticals

## customer challenge

- United States based biopharmaceutical customer was facing manufacturing shutdowns due to inconsistent supply and long lead times from overseas suppliers
- the customer required high-purity multi-compendial specifications:
  - NF, EP, JP, BP, and ACS grade

## solution

- with raw materials sourced and manufactured in the United States Aurorium provided supply chain risk mitigation

- **Aurorium** provided multiple grades of high-purity sodium hydroxide pellets meeting the specifications required for:
  - ACS (American Chemical Society)
  - BP (British Pharmacopeia)
  - EP (European Pharmacopeia)
  - JP (Japanese Pharmacopoeia)
  - NF (National Foundry)

## benefits

- **supply chain risk mitigation:** US manufactured raw material provides shorter lead times
- **quality assurance:** consistently meets high-purity grade specifications for sodium hydroxide

## at a glance

supply chain risk mitigation for high-purity sodium hydroxide pellets for biopharmaceuticals

**Aurorium** is your partner for a better future; focused on providing solutions that enhance drug delivery, feature biocompatibility for optimized performance, and support human health
